

Racker's Parent Network presents:

Racker Speaker Series

EARLY CHILDHOOD

Racker's Parent Network presents a monthly Speaker Series dedicated to supporting the individuals and families at Racker. Individuals that are OPWDD/FSS eligible, as well as those participating in Racker's Early Childhood and Clinical programs are welcome to attend.

This workshop series is offered monthly via ZOOM at no cost. Each month features a different topic presented and moderated by Racker professionals, specialists, and certified experts.

Tuesday, March 15th 2022 6-7pm

Safety At Home & In The Community

Workshop Objectives

1. Learn about the risk of wandering for children with autism spectrum disorders and other special needs
2. Identify why your child is wandering and common triggers
3. Learn prevention strategies that families can use at home and in the community
4. Receive information about Project Lifesaver and other safety resources that can help families keep their children safe

Caren Castleman

Caren works with children and families as a Behavior Specialist in the Supporting Success program at Racker. She previously worked in the Partnership program in Racker's preschool in Ithaca. She has a M.S. in Applied Behavior Analysis (ABA).

We will also be presenting on **Project Lifesaver**, whose mission is "To protect the wandering & bring peace of mind to families, caregivers & communities."
